We see your potential

Scholarships include a renewable financial award of up to \$40,000 per year.

The actual award amount is calculated based on several factors, including the student's financial need, the Cost of Attendance at their college of choice and additional scholarships received.

Cost of Attendance includes standard amounts for tuition, living expenses, books and required fees. Students with dependent children may also be able to add child care expenses to their Cost of Attendance.

Ford Opportunity Scholars who successfully complete their bachelor's degree may be eligible to apply for up to two years of graduate-level support.

Our selection process recognizes the potential of all students, especially rural students.

There is no minimum GPA requirement to apply. We look for resilient students who believe success is the result of hard work and exemplify exceptional qualities such as:

Academic potential

Show an academic ability to be successful in college; curious and motivated to learn

Community engagement and service to others
